

How do Saunum's heater and climate device work?

Saunum's patented air-mixing system creates a balanced and comfortable sauna climate by continuously circulating and blending air throughout the sauna room. Instead of allowing extreme heat and steam to accumulate under the ceiling, the system captures the hot air and steam, mixes them with cooler oxygen-rich air near the floor, and redistributes the softened air evenly from head to toe.

This continuous air circulation helps equalize temperature differences inside the sauna, making the heat feel more natural, balanced, and easier to tolerate. At the same time, the softened, oxygen-enriched steam is easier to breathe, allowing water to be poured more often for richer steam, higher humidity, and a deeper, more satisfying sweat – without harsh heat peaks.

Using a patented air-enrichment method, salt ions from the Himalayan salt spheres inside the climate device are released into the circulating air, helping them reach the skin and respiratory tract.

An even more relaxing sauna experience is created with the aroma system, which blends sauna oil aromas with the circulating steam and air. This provides a gentle and healthy alternative to burning aromatic oils directly on heater stones.

Choose the heater with power adequate to the cubage of the sauna room

However, for non-insulated walls (brick, glass block, glass, concrete, floor tiles, etc.) a more powerful heater is needed. Add 1 m³ to the cubage of the steam room per each square meter of uninsulated wall. For example, a 10 m³ sauna room with a glass door corresponds to the power requirement of a 12 m³ sauna room.

Smart sauna control unit Saunum Leil

Saunum Leil is a next generation sauna controller that is convenient and easy to use. According to sauna data, Leil optimizes the time spent on heating and thereby also energy consumption. Three pre-settable sauna modes let you heat the sauna with just a few taps on the screen. With the help of **Saunum Leil Mobile**, you can control your sauna wherever you are at the moment. Sauna notifications are displayed on the user's mobile phone screen. Use **Leil button** to control the fan speed and air circulation of the sauna climate device directly from inside the sauna.

Sensational experience relaxing 5-in-1 spa solution

Try different settings and steam intensities to turn your sauna into a home spa.

Classic Nordic sauna

Temperature 60 °C–100 °C
The climate regulating system:
speed level 1, the valve 25% open

Humid steam-rich sauna

Temperature 45 °C–60 °C
The climate regulating system:
speed level 2 or 3, the valve 100% open
The lower the temperature, the more open the valve and the higher the speed of the climate regulating system, the more visible steam is generated when throwing water on a heater.

The mild, relaxing sauna

Temperature 40 °C–55 °C
The climate regulating system:
speed level 1, the valve at least 25% open, if you prefer a softer, more humid sauna.

Sauna enriched with salt ions

Temperature 40 °C–100 °C
The climate regulating system:
speed level 1, the valve 25% open
The salt spheres added to the climate device work at any temperature, if the sauna climate device is switched on.

Aroma sauna

Temperature 40 °C–90 °C
The climate regulating system:
speed level 1, the valve 25% open
Replace one of the salt spheres with an aroma bowl, add some Saunum aroma oil into it and enjoy!

Home spa sauna heater

saunum experience

Saunum Experience is a unique sauna heater with climate device designed for an advanced sauna experience in apartments and private houses. The large stone volume and the patented air mixing system ensure exceptional steam that is soft and evenly distributed throughout the steam room. When Himalayan salt spheres are added to the device, they enrich the air with salt ions, which have a soothing effect on the respiratory system and skin. Saunum Experience lets you choose at least five sauna solutions that turn your sauna into a relaxing spa.

Home spa sauna heater

saunum experience

With its compact dimensions and classical, timeless design, Saunum Experience fits every sauna. Choose either a minimalist closed stone basket or an open stone basket in a Nordic black. With the new generation sauna control device, Saunum Leil, it is easy and convenient to control the heater. Three pre-set steam types allow you to heat the sauna with just a few touches of a screen. With the help of the Saunum Leil mobile app, you can control your sauna from wherever you are.

Saunum Experience offers an innovative steam experience suitable for the whole family. A softer steam mixed with oxygen-rich air makes breathing easier. The 5-in-1 home spa solution allows you to transform a classic steam sauna into a sauna enriched with salt ions, a mild relaxation sauna, a humid steam sauna, and an aroma sauna.
